CCPS Launches Use of Edulog Parent Portal Bus Tracking APP

JONESBORO – As we prepare for the start of the 2019-2020 school year, Clayton County Public Schools (CCPS) is excited to announce the availability of a new bus tracking smartphone application for parents and guardians! Education Logistics (Edulog) Parent Portal is an app that allows parents to have their child’s transportation at their fingertips. Designed as a self-service app that allows parents to track a student’s assigned transportation to and from his or her school in real-time, users are also able to receive critical updates regarding transportation statuses and more.

According to its website, Education Logistics, Inc. is the original school bus routing Software Company and has been providing Routing and Planning software solutions to districts across North America since 1977. Dedicated to ensuring that their software and hardware solutions stay on the cutting edge by adding school bus GPS tracking, student ridership, and fleet management solutions, Edulog is committed to helping school districts improve safety and keep money in the classroom while transporting students efficiently.

“We are truly excited to utilize this platform as we begin the 2019-2020 school year,” said Mr. Harold Walker, CCPS Director of Transportation. “With an anticipated 370 bus routes transporting over 27,490 students daily, we know how important it is for parents to be able to monitor bus locations for bus stop drop-offs and pick-ups. By providing parents with complete access to their child’s location while in transit, we believe it will give parents added peace of mind and we are very glad to add this technology for our parents/guardians and school district,” he concluded.

“By incorporating Edulog into our wide array of communications platforms, we are creating a heightened level of transparency and access within our district for parent/guardians,” said Dr. Morcease J. Beasley, Superintendent/CEO of Schools. “As a school system that values community engagement and utilizing enhanced technology in our daily operations, I am proud of our Transportation Department, and all parties, involved in creating this opportunity for our stakeholders,” he added.

The free Edulog app can be downloaded in the Google Play Store for Android users and in the App Store for Apple users by searching Edulog Parent Portal. For additional information regarding Clayton County Public Schools, please download our district app, which is also available for free on the Google Play Store and Apple App Store by searching Clayton County PS.

About Clayton County Public Schools

Clayton County Public Schools (CCPS) is fully accredited through AdvancED – Southern Association of Colleges and Schools Council on Accreditation and School Improvement. The district offers a focused world-class program based on a challenging curriculum which is taught from pre-kindergarten through 12th

grade. Serving over 55,000 students, Clayton County Public Schools is ranked among the 100 largest school districts in the U.S. and is the fifth largest school system in Georgia.
